Thank you for viewing our Summer Retail Price List. It's a little late, but that just means we've had more time to grow the plants even bigger for you. We have customers of all growing abilities, from those with decades raising orchids, to those who have recently started. We can't grow everything for everyone, but we try to offer something for everyone.

Many hobbyists like our wide selection of plants in 2" & 2-1/2" pots, since they are so inexpensive. For many years now, there also has been an increasing demand for near blooming size plants, since some hobbyists want to grow beautiful specimen size plants. We have many of our own fun & interesting hybrids. And we have managed to propagate & grow lots of previously hard to get orchid species ... especially in the cattleya & dendrobium alliances.

They are the result of many years of accumulating & selective breeding of highly desirable, & often, rare species. You may have seen our plants offered by others elsewhere; however, we are the source of many of these selectively bred species, which are of award quality & seldom offered by any nurseries.

You may download our 19 pages of photos & print them for your reference. Orders should be made using the Retail Price List, also available for downloading. Please do not order using Photo #.

Please call, fax, mail or email orders to "orders@hrnurseries.com". I'll respond by email as soon as I can. Please include a cell or regular phone number. For matters requiring immediate responses, please call, email or fax. Charge Card numbers should be called in or faxed. Thank you for your support & patronage.

Shipments insulated for heat & cold, via US Priority Mail or Federal Express. We guarantee safe delivery. Mail shipments may be held during extremely cold periods. Unless otherwise instructed, orders received by Friday morning will be shipped the following week. We can delay shipping paid orders, if requested. In case of shipping damage,, please notify carrier immediately & contact us. If you have problems with your plants, please contact us immediately.
