#### **H&R's Assurance of Quality .**

We grow & sell strong, vigorous, healthy & generously sized orchid plants. H&R's quality control demands that our plants surpass the stringent standards required for export to the US mainland, as well as to foreign countries.

During winter, Fed Ex shipments usually continue except during severe cold or winter storms. Insulated as necessary. Mail to warm areas like Puerto Rico may be affected, since mail may travel through cold airports like Chicago.
