H&R's Assurance of Quality .

We grow & sell strong, vigorous, healthy & generously sized orchid plants. H&R's quality control demands that our plants surpass the stringent standards required for export to the US mainland, as well as to foreign countries.

We may postpone shipments during extreme heat periods to hot areas. During winter, Fed Ex shipments usually continue, except during severe cold or winter storms. Insulated if necessary. Mailing to warm areas like Puerto Rico may be postponed, since mail takes longer & may travel thru or be held at cold airports.
